

HYPNOS Site Design

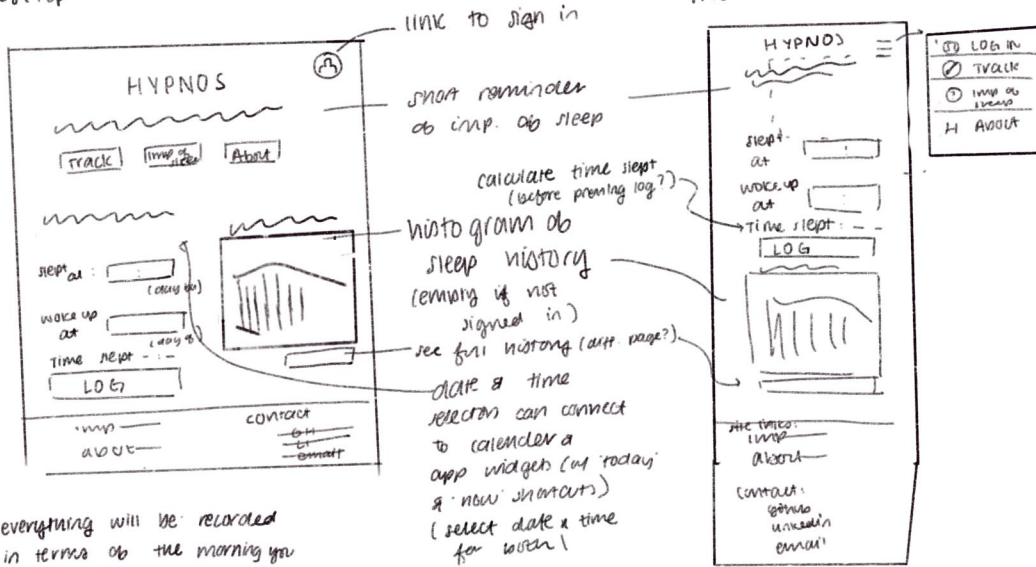

Main Page

("main")

(where 'track' leads)

Desktop:

mobile:

- * everything will be recorded in terms of the morning you wake up (so 8pm on 11/120 means you wake up on the first w/ 8 hours of sleep)
- that way is, in future, you wanted no track more or needs changes, it's easier to see correlation

The Importance of Sleep

("imp")

- article-style short write on why sleep is important, recommended amount of sleep, sleep cycles, & further resources
- give full citations

ABOUT
("about")

- explain what hypnos is, purpose of simplifying in reading, avoiding distractions when interacting w/ a device right before & after sleeping
- short bio about who I am
- explain my additional purpose that this is a way for me to learn web-dev, link to GH read me.

Color Scheme

- reminiscent of pretty, lavender sunset: connects to sleep & lavender/ blue is relaxing on the eyes

- "black" = #0f0417
- "highlight-l" = #c3b5ff
- "highlight-d" = #5f3d92

- background can be gradient from highlight-d to highlight-l
- Dark mode?
- switch based on current time?
(night time → dark mode, bright like night sky
Day time → light mode, bright like pale sunrise)

Fonts

- minimalist & relaxing
- Title: Noto sans sc regular
- Sub: Noto sans SP Regular
- Logo: Anima madurai
("HYPNOS") extra-light 200
